THINK: Quick AI Tips for Librarians
working with students

T

Test Ideas

Start with your own thoughts; use AI to challenge and expand.

H

Highlight Voice

Mix AI suggestions with personal insights; keep writing authentic.

I

Integrate Insights

Combine AI ideas with reflection and original reasoning.

N

Navigate Stages

Use AI in early stages—brainstorming, outlining, drafting.

K

Keep Ethical

Verify outputs, maintain integrity, and credit AI appropriately.

"These tips were created in conjunction with ChatGPT and are based on the elicited report titled, '[How does the integration of AI writing tools influence college students' creativity and critical thinking during the process of composing academic research papers?](#)'"
